Education

Dr. A.P.J. Abdul Kalam Technical University

Bachelor of Technology in Computer Science Engineering (Data Science)

Sep. 2023 – Present(2027)

Ghaziabad, Uttar Pradesh

Experience

Omega Solutions

MERN Developer

June 2026 – Present

Noida India

- Refactored monolithic REST endpoint into modular Node.js APIs, cutting redundant data transfer.
- Optimized image delivery via lazy loading and asset compression, boosting production page load speed.
- Automated client inquiry emails using Nodemailer in Node.js.

MarsMeta Tech

Full Stack Developer Intern (Remote)

May. 2026 – Jun 2026

Bengaluru, India

- Engineered a full-stack networking platform using React.js and Node.js, enabling users to create and share dynamic profile templates.
- Implemented secure authentication and real-time data sync with Firebase.
- Delivered features iteratively in a mentor-guided workflow using JavaScript, CSS, and Git-based version control.

Projects

NexCall – Live VideoCall Chat | *React.js, Node.js, WebRTC, Socket.io, MongoDB, Tailwind Css* March 2025

- Engineered peer-to-peer video calling using WebRTC with custom ICE negotiation and Google STUN servers, sustaining real-time media exchange across concurrent rooms.
- Designed a Socket.io signaling server managing full session lifecycle—join, signal exchange, chat broadcast, disconnect—with per-room tracking and message-history replay.
- Shipped screen sharing, mic/video toggle, and in-call chat with unread badges, delivering a production-grade React SPA meeting experience.

BrokerBase – | *React.js, Node.js, Express.js, MongoDB, JWT, Chart.js, Bootstrap, Docker* September 2025

- Architected end-to-end JWT authentication (signup, login, protected routes), securing user sessions across a full MERN stack application.
- Engineered 8+ RESTful APIs in Node.js/Express.js for holdings, positions, orders, and portfolio management, achieving sub-100ms response times.
- Built a multi-view analytics dashboard with Chart.js to visualize real-time portfolio data, reducing user time-to-insight.

Technical Skills

Programming Languages: JavaScript, C++, SQL.

Frontend: HTML, CSS, JavaScript, React.js, Redux Toolkit, Tailwind CSS, Bootstrap.

Backend: Node.js, Express.js, REST API, JWT Authentication, WebRTC, Socket.io.

Databases: MongoDB, MySQL, MongoDB Atlas.

DevOps & Cloud: Docker, AWS EC2, AWS S3.

Version Control: Git, GitHub, Git Bash.

Tools: Postman, VS Code, npm, Render, Vercel.

Achievements & Certifications

Certifications: MERN Stack Development Certification from Apna College.

Problem Solving: Solved 300+ Data Structures and Algorithms (DSA) problems across coding platforms.

GitHub Contributions: Maintained 500+ GitHub contributions showcasing consistent coding and development practice.

Development: Built and deployed multiple full-stack MERN applications with authentication, APIs, and database integration.
